

# Your National Retrofit Delivery Partner

Scalable. Accredited. Proven.

## About us

We are an experienced specialist retrofit contractor providing end-to-end decarbonisation solutions for:

- Local Authorities
- Social Housing Providers
- Mainline Contractors

We offer the technical expertise and national infrastructure to help you deliver high-volume energy efficiency projects at scale, on time and to PAS 2035 standards.

## What we do

Our suite of 'whole-house' retrofit measures include:

- Insulation Measures
- Renewable Heating
- Solar PV
- Electrical Upgrades
- Ventilation

We also offer independent, PAS 2035-compliant services—including assessment, design, and coordination—to support your retrofit projects end-to-end.

## Why partner with us

**UK Coverage:** Our offices in London and Preston ensure we cover the UK and can mobilise and scale up quickly nationwide.

**Experience:** We have a proven track record of working as a trusted partner to large-scale social housing providers and contractors.

**Framework Ready:** We are on several procurement frameworks including SEC, Procure Plus, and GMCA.

**Customer Focus:** Our team are experienced in managing social housing environments, with high tenant satisfaction, minimal disruption and high-quality work.

## Get in touch

Whether you are delivering Social Housing Fund (SHF), Local Grant or a capital programme we can provide the technical skill and manpower to meet your KPIs.

**Speak to Jamie today and find out how we can help you with your project.**
